FOREWORD

DMYTRO KULEBA

Minister for Foreign Affairs of Ukraine

On behalf of Ukrainian business community, it is a great pleasure to welcome all participants of the 26th edition of Gulfood, the world's largest annual food and beverage trade exhibition.

This global meeting will assemble the world leaders in food production and demanding buyers of the prosperous region of the Gulf.

Ukraine is a nation of farmers. We are known as a top producer of agricultural commodities: in 2019/2020 Ukraine was ranked 1st in the world in sunflower oil export, 2nd in barley export, entered top 4 in corn export, and top 5 in wheat export worldwide. During the first months of the pandemic, when the global supply chains were damaged, we continued to meet our obligations and substantially contributed to the food security of our friends and partners in the Middle East, Europe, South East Asia, and North Africa.

But our country is also a top-notch processed food producer. Every year more and more Ukrainian companies get the international quality certification. More modern labs and halal centers are created for the buyers' convenience. For sure, Ukrainian high-quality food will meet the requirements of both the biggest supermarket chains and high-ranked venues of the hospitality industry of the region of the Gulf.

Ukrainian business is getting stronger, and one of the top priorities of the Ministry of Foreign Affairs, which I have the honor to head, is to help to increase trade volumes and strengthen international ties with our counterparts.

Our delegation is looking forward to excellent meetings and productive cooperation. I hope that the strict anti-COVID rules of the year 2021 will not affect the efficiency of the exhibition and each participant will bring back home a profitable contract and the joy of communication with like-minded Gulfood community members.

TARAS KACHKA

Deputy Minister for Development of Economy, Trade and Agriculture of Ukraine – Trade Representative of Ukraine

It is an honor and privilege for me to be a part of the 26-th GULFOOD exhibition and to represent the Government of Ukraine at the most important event of the year for food and beverages professionals from all over the world. The scale of the event is impressive, and the expectations of its participants and guests are high. As for Ukrainian business, the GULFOOD was always been considered a place with great opportunities to find trusted partners from the Middle East, Indian subcontinent and Africa.

Ukrainian companies traditionally have a lot to offer on the food and beverages market. Our key export products are grain, sunflower oil, meat and by-products, eggs, tomato paste, juices, confectionery, etc. Ukraine is the main supplier of sunflower oil and one of the six leading grain suppliers in the world, and we have much more to propose to the consumers in the United Arab Emirates and beyond: certified organic products, dairy, sweets, wide range of cereals, fruits and berries just to name a few.

I am pleased to invite you to the National Pavilion where leaders of the Ukrainian food and beverages market will present their high-quality products. We expect to receive a feedback in a form of many new contracts with representatives of the international business.

The COVID 19 pandemic did not significantly affect our cooperation and trade, and in such difficult conditions we are pleased to present the Food Industry of Ukraine at our national stand.

I wish organizers, participants and guests of GULFOOD-2021 a fruitful work, new experience, promising contacts and good memories.

FOREWORD

MYKOLA ZASULSKYI

President of the Kyiv Chamber of Commerce and Industry

To all the participants of the largest international exhibition of food, beverages, equipment for hotel and restaurant business and cooking “Gulfood 2021” on behalf of the Kyiv Chamber of Commerce and Industry and Ukrainian business, my sincerely greetings!

The Gulfood exhibition is not just one of the most important meeting places for players in the global food industry but it is a loud and bright event that brings together more than 100,000 visitors from 200 countries each year.

In recent years, there has been a steady trend between Ukraine and the UAE to revive trade and economic cooperation. The total volume of trade in goods and services between Ukraine and the UAE amounted to \$1 billion 65 million US dollars and a positive balance — \$445.6 million in 2019.

The Gulfood exhibition has been an important platform for building trade relations which is an integral part of the business plans of the global food industry. The exhibition consistently achieves new results, grows from year to year and its global status is beyond doubt. We have been organizing the participation of Ukrainian companies in the national stand for the 8th year in a row because we demonstrate to the world only high-quality products of the leaders of the Ukrainian food market.

Last year, 37 leading companies from the food and agricultural industries and more than 100 business participants took part in the visit. The exposition and the presented products of Ukrainian producers aroused great interest among entrepreneurs from the UAE and the Middle East. During the stand working days, there were more than 20 thousand contacts and the volume of agreements to supply Ukrainian products exceeded several tens of millions of US dollars.

The brand “Made in Ukraine” offers meat and dairy products, cereals, sunflower oil, walnuts, grains and legumes, confectionery, eggs, juices, tomato paste and many other products. I am glad to invite you to visit the Ukrainian National Pavilion!

We hope for promising cooperation and we sincerely wish all participants and guests of the exhibition success!

IRYNA ZELENINA

Director of Export Promotion Center KCCI

Dear Participants and Visitors,

We are truly delighted to welcome you on the biggest Ukrainian Pavilion presented on Gulfood-2021!

It's a great honor for us to represent Ukrainian business community during such an impressive event which attracts food and beverage professionals from all over the world to Dubai – a hub for international trade and commerce.

Since its launch in 1987, the exhibition has grown to promote trade between more than 180 countries annually. In 2020 Gulfood set records with 97,000 visitors attending and over 5000 companies from over 185 different countries exhibiting their products.

Gulfood-2021 will become one more milestone for the Ukrainian business community to plan and implement every new project, taking into account new world tendencies in development and promotion of the food industry. Also, our enterprises will demonstrate their high quality products and services to the potential customers and partners. Being organizer of national exposition, we are doing our best to prove that Ukrainian products are complete around the globe and exceed international standards.

We wish the participants and guests of the exhibition fruitful cooperation, new prospective business opportunities and inspiration on their chosen path! EPC team

Agrofusion is a vertically integrated group of companies: we do seeding, nursing tomato plants in greenhouses, growing tomatoes and processing them into Inagro™ tomato paste. Established in 2007 and located in the South of Ukraine — traditional tomato growing region.

Agrofusion cultivates 33 000 ha of irrigated land in Mykolayiv and Kherson regions. Processing 775 000 MT of fresh tomatoes our company ranks 16th place in the world and is the biggest B2B tomato paste producer in Ukraine.

We are constantly expanding the range of **Agrofusion** products to meet our customers' requirements optimally. Therefore, since 2017, we have produced **Inagro™** Organic Tomato Paste in accordance with

the Standard for Organic Production and Processing, which is equivalent to the EU Regulations 834/2007, 889/2008.

Inagro™ — concentrated tomato products of premium quality. By using CB, WB, HB or SHB technology, we can obtain any concentration of tomato product, according to the exclusive customer specification. Our product range consists of 15 CB, 28/30 CB, HB, WB, 28 SHB, 28/30 CB organic, 30/32 HB and 36/38 tomato paste.

We offer organic and conventional tomato powder CB, HB. The tomato powder is made from 100% tomatoes, grown by **Agrofusion** using Filtermat technology. The latest technologies allow us to achieve premium-quality dark red tomato powder without any anticaking agents.

Located in the Central Europe with easy access to land and water transport we provide fast and effective service to our customers all over the world.

To ensure **Inagro™** tomato paste quality and food safety Agrofusion controls every stage of growing and processing. Our facilities are certified according to FSSC 22 000 Food safety management system, ISO 14 001 Environmental management systems, OHSAS 45 001 Occupational Health and Safety Management Systems, GLOBALG.A.P. Kosher and Halal certificates are available. **Agrofusion** is ready to meet the specific requirements and needs of every customer.

We are a group of companies, operating together in the field of production, processing and trading with agricultural products.

Our purpose is to deliver products according to the highest international quality standards and to meet all the requirements of our buyers.

Our production facility **Agroinvest Kherson Ltd.** is located in Kherson, Ukraine. Here we process sunflower seeds and sunflower kernels from the best confectionery sunflower varieties. Even our bakery kernels are produced from confectionery type of sunflower seeds, which have better taste

qualities and longer shelf life, due to the different oil content of the Ukrainian varieties. We calibrate also black, stripped and white sunflower seeds inshell, as per our clients' personal needs. Our modern technology equipment enables us to provide products with an excellent quality. We are certified according to the highest European and International standards – FSSC 22000, ISO 14001, ETI.

The commercial activity is managed by our trading companies Trakia Grain Ltd. operating from our main office in Plovdiv, Bulgaria and also Bis Handels GmbH – our trading company for Germany.

BEEHIVE is a modern Ukrainian company, which is specialized on manufacturing of high-quality honey.

Beehive produces the cleanest, eco-friendly honey possible, uniting modern technologies with thousand-years-old traditions of Ukrainian beekeepers. We collect honey in the most picturesque and naturally diverse corners of Ukraine, unmarred by civilization the black-soil flower fields, famous for their unrivaled mineral richness.

Beehive has the highest standards of quality and product purity verified by certified international laboratories. Additionally, the manufacturing process is accompanied by constant quality assurance procedures from the best available experts and equipment.

The company works according to FSSC22000 Food Safety Management System and gained other international quality certifications like IFS, Organic, Halal and FDA.

Beehive supplies the highest quality products to more than 26 different countries around the world, offering honey in drums and packed into jars.

The company offers such types of honey as sunflower, acacia, buckwheat, blossom, linden cream honey, rapeseed cream honey and two types of honey with fruits: honey with currant and honey with lemon.

Packaging options are: 125g, 250g, 400g, 550g, 1000g

“Eco-Snack” LLC specializes in the production of natural and healthy fruit snacks.

All our products challenge common perception of the mass market food industry. They are always natural, healthy and delicious.

We believe that the global approach to clean nutrition needs to be changed, and Bob Snail products are to facilitate this change.

Bob Snail is as natural as baby food, yet we do not mark it as such. Why? We believe all people regardless of age deserve to eat healthy.

Clean nutrition is our holy grail. We never ever add sugar, nor preservatives, nor colorants — none of our products contain any artificial additives whatsoever. And never will.

The World is changing. “Healthy” alone does not suffice people any more. They want “healthy” plus “tasty”.

Bob Snail products are just as tasty as your favourite snacks yet natural and clean.

HD-group is a quality-driven and customer-oriented national holding. Over the years, we have emerged to be the market leader, setting the pace for the agri-food industry in Ukraine. The company is positioned as an agri-food platform, with a set of outsourcing functions in the B2B market — from the production of goods to the provision of procurement and logistics services.

The Group has several production plants all over Ukraine, including grain processing enterprises, bread, confectionery and jam

factories. In addition, we have an agrarian facility complex, which includes mill and 2 grain elevators, where we manufacture high quality white and wheat flour.

We produce several product categories, which include:

- › bread and bakery products;
- › confectionery;
- › jams and syrups;
- › flour, grains, cereals and instant flakes.

All of the above product categories can be produced under our own label, as well as for private labels.

HD-group already has a wide geography of exports, covering North America (USA, Canada), South Korea, several European and Middle Eastern countries. Some products are HALAL and KOSHER certified, which ensures their freshness, purity and quality. Our export operations have a strong global presence where we constantly aim to steadily supply and empower our customers.

UkrOilStar (LLC INTERPRICE CORPORATION) is a manufacturer and exporter of high-quality bottled refined deodorized frozen sunflower oil of brand P.

The company's products are highly purified sunflower oil with a neutral taste and smell, made from high quality Ukrainian sunflower seeds.

Our products complies with state standards and satisfy all the requirements of DSTU4492:2017 "Sunflower oil. Specifications" and the high requirements and standards of other countries.

The company increases its production capacity annually. Thanks to modern high-tech and energy-saving equipment from leading European manufacturers, the harmful effects on the environment are minimized, and the productivity and quality of products remain at a high level.

Modern systems and technologies for the subsequent processing of oil, high automation of all processes, control of each stage of production and qualified personnel guarantee high standards of product quality, which is confirmed by certificates

of conformity and safety of food products HACCP (ISO 22000: 2007, ISO 22000: 2005, IDT), HALAL.

A full package of documents and certificates is provided for products.

Private Label is one of the most important areas of the company. We cooperate with both large retail chains in Europe, China, the United Arab Emirates, Saudi Arabia, and individual clients who want to produce sunflower oil under their own Private Label.

Facilities of the company located in the Odessa city, in the immediate vicinity of the largest Ukrainian port on the Black Sea. It allows to deliver goods to anywhere in the World in the shortest possible time with minimal cost.

We are an actively developing company that produces quality products. We have extensive experience in export and also we have a good business reputation.

BENEFITS OF OUR COMPANY:

- › An individual approach and close interaction with every client;
- › Private label (the company can use both its own brand and the customer's Private label);
- › Technology (the company is constantly striving to increase capacity and improve the production process) and highly qualified staff;
- › Nitrogen saturation;
- › Timing (location of the company's facilities, forwarding and logistics department allow you to deliver goods to anywhere in the world with minimal cost, in optimal time and by any transport).

INTERSTARCH manufactures and supplies a wide range of food raw materials, obtained by processing corn and wheat. Having more than 50 years' experience, our goal is to provide products — on time, within budget, and in accordance with the customer's specification.

INTERSTARCH is approved supplier for leading multinational brands including Mondelez (Cadbury), PepsiCo, Nestle, ABInbev, Carlsberg etc. We deliver our products by rail, sea and road transport, covering the supply of more than 72 countries on all continents.

INTERSTARCH offers ingredients for food industry:

- › native regular and waxy corn starches;
- › native wheat starches;
- › modified food starches;
- › gluten-free ingredients & baking mixes;
- › glucose, glucose-fructose & high-maltose syrups;
- › dried syrups;
- › crystalline fructose;
- › vital wheat gluten (VWG 82%);
- › maltodextrins;
- › crude, refined and deodorized corn oil.

For animal feed INTERSTARCH offers:

- › corn gluten meal (CGM 65%);
- › corn gluten feed;
- › corn steep liquor.

All our products have **non-GMO status and certified** according to ISO 9001, ISO 22000 (HACCP), FSSC 22000 (GFSI compliant) and Halal. Systematic testing and audits conducted by production laboratories, as well as by independent experts, confirm that our products meet high standards of quality and food safety.

GRADOIL is a modern enterprise, specializing in sunflower seeds and rapeseeds crushing, refining and bottling

The plant began its operation in December 2012, when the first stage of high-quality oil seeds and meals production was launched.

GRADOIL is equipped with the specialized facilities of leading world producers. At the base of production processes of sunflower and rape seeds there is a pre-pressing – extraction technology scheme.

Quality indicators of production satisfy the requirements of state and world standards under security settings.

The main **Gradoil's** purpose is a production of competitive products meeting all customers' demands in domestic and foreign markets.

All production processes are fully automated. Using of modern software support allows to achieve an ease in operation, correctness in compliance with main process requirements, and exclude in full the human factor in production, which guarantees

excellent quality and safety of produced products.

Continuous monitoring of production cycle and using of modern innovation technologies allows to prevent the raw, semi-finished and finished products from being potentially dangerous ones.

The plant was built according to all rules of environmental control and safe operation of the staff. Industrial emissions wastes, industrial discharge into the air are cleaned by special complex installation units of world manufacturers, thus avoiding the

ABOUT THE COMPANY

Khorol Factory for Baby Food was founded in 1972 and is the only manufacturer of children's special nutrition on the territory of Ukraine. Hundreds of thousands of children grow up healthy owing to products of the factory.

We produce infant formulas only from natural milk, enrich them with necessary vitamins, micro- and macronutrient elements and biologically valuable components. It allows not only to preserve the biological value of the product but also gives excellent flavoring qualities for infant porridges and formulas. We don't add palm oil, coloring agents, food additives, pesticides, GMO and different others harmful substances.

We pay great attention to quality control at every stage of production. At all stages, the systems of the estimation introduced: from the development of recipes to the launching of production, and even at the stage of the goods delivery. The production corresponds to all international standards ISO 9001:2009 and HACCP. All products are certified according to the requirements of Ukrainian legislation and HALAL certified.

Milk Alliance is a group of companies, which includes high-capacity enterprises designed for producing and marketing milk products. It is the leading enterprise in the milk industry of Ukraine. The company includes enterprises producing cheese, milk and dairy products, enterprises for the collection and processing of milk as well as companies, which carry out sales of products in Ukraine and abroad. The products are manufactured under the brands Pyriatyn, Slavia, Yagotynske, Yagotynske for Children, Zlatokrai, Hopsy and Milk Alliance.

Basic priorities of Milk alliance, which were set at the beginning of the activities of this group of enterprises with consideration for the future, are the following:

- > concern about the health of the consumers, and hence on the health of the nation;
- > production of high quality natural products;
- > constant updating of technological processes and equipment.

Group of Companies Milk Alliance is optimistic and confident about the future. An experienced and cohesive team of like-minded managers is working hard to keep the company a leader of the dairy industry of Ukraine and favorite supplier of dairy products to every family. On January 2016, Zolotonosha Butter-Producing Plant and the branch of Yagotynsky Butter Plant Yagotynske for Children, both belonging to the Milk Alliance Group of

Companies, got the right to export their products to the EU countries.

--------------------------------------	--	---	---	--	---

OVOSTAR Limited is a part of the modern agricultural group Ovostar Union which is among five largest producers of eggs in Europe. The main advantage of our holding company is vertical business integration, that provides proper level of resources optimization, as well as the strictest quality control throughout all stages of manufacturing process. All production facilities are located in central Ukraine in close proximity to each other. High level of vertical integration enables cost and quality control at all stages of production process.

SHELL EGGS

Hen eggs are produced at two modern poultry farms with total capacity of more than 8 million bird places. Our poultry houses are equipped with enriched cages complying with European standards.

The company has vast experience in packing and shipping its products to more than 50 countries in Europe, Middle East, Asia, and Africa. In 2017 Ovostar Union received the approval to export eggs and egg products to the European Union.

EGG PRODUCTS

OVOSTAR egg processing plant is recognized as one of the leaders in Ukraine by the production volume. **OVOSTAR** plant processes more than 2 million eggs per day. All products undergo pasteurization, which provides total safety of the finished goods. The wide range of more than 20 egg products, as well as additional mixes with specific properties, meet the requirements of the leaders of Ukrainian and worldwide foodmanufacturing industries.

The OVOSTAR's expanding product portfolio includes:

- Whole egg powder
- Egg white powder albumen, HW, HG albumen
- Egg yolk powder
- Fermented heat stable egg yolk powder
- Liquid whole egg chilled/frozen
- Liquid egg white chilled/frozen
- Liquid egg yolk chilled/frozen
- Heat stable liquid egg yolk chilled/frozen
- Scrambled eggs mix
- Tailor-made egg product mixes

QUALITY

Quality management and food safety control systems are implemented at both egg production and egg processing facilities, ensuring strict compliance with international standards (ISO 9001:2015, FSSC22000 v.5, HALAL).

ROSHEN Confectionery Corporation is one of the world's largest confectionery manufacturers. **ROSHEN Confectionery Corporation** ranks 27 in the Global Top-100 Candy Companies ranking. Under its own "sweet quality mark", ROSHEN produces more than 350 kinds of perfect quality confectionery products. The product line includes chocolate and jelly sweets, caramel, toffee, chocolate bars, biscuits, wafers, sponge rolls, pastry and cakes. Some of these are unique products for Ukrainian market. The total volume of production reaches around 300 thousand tons per year. ROSHEN confectionery products are manufactured in accordance with the latest technologies.

Modern high capacity equipment, strict adherence to the production technologies, only high quality raw materials guarantee key strengths and superiorities of the Roshen products. The production units of **ROSHEN Confectionery Corporation** are certified in accordance with the requirements of the international quality and food safety standards. The monitoring of the product quality control and required researches are automatized at every factory of **ROSHEN Corporation**.

ROSHEN chocolate is a combination of excellent recipes and mastery of confectioners, which ensures a high quality product that brings true satisfaction. The range of chocolates includes classic dark and

milk chocolate, extra dark and extra milk chocolate, and dark milk chocolate. Also, there is an entire line of chocolate with additives: ground and whole hazelnut, sesame or blueberry, vanilla, coconut and peanut nougat. Aerated chocolate lovers can choose among extra dark, milk, white and caramel white chocolate. The **ROSHEN** products gallery is not complete without biscuits, crackers, wafers and wafer rolls. In stores these products are sold both in packages and in bulk. **ROSHEN Corporation** is an absolute leader in caramel production in Ukraine. If we put it in numbers: around 40% of caramel products at the home market belong to **ROSHEN** factories in Kremenchuk and Vinnytsia.

We are a company “**Smart Vegetable Oil Factory**” from Ukraine which produces top quality products on a modern oil extraction. Thanks to the modern technologies, the plant operates in a closed cycle, which ensures non-waste production and minimal impact on the environment. The quality and safety of products are the main priorities of production.

Smart Vegetable Oil Factory produces bottled vegetable oils of the brands “Smart Veg Oil”, “BonAppetit”, “Sonyashny Shlyakh”, “Dobry Kum” “Pure”, “Selecto”, as well as products under its own brands of the largest retail chains and large wholesale customers. The capacities of the enterprise allow to produce more than 2000 tons of refined vegetable oil and to pack the products on time.

Packaging of finished products on the filling line is possible in PET bottles with a volume of 1l, 1.8 l, 3 l, 5 l. An individual approach to each transaction provides for the flexibility of conditions according to the requests of each buyer. **Therefore, the company also offers its customers additional services related to product packaging:**

- › development of labels and markings with private label;
- › packing in boxes with the client's brand;
- › variation of density and color of cardboard for packaging;
- › development of an individual shape of bottles for a client's order.

The plant provides its customers with only high-quality materials for packing and packaging of refined sunflower oil, and also guarantees reliable and safe loading of finished products into vehicles for further transportation.

We are also engaged in trading activities such products:

1. Vegetable oils:
 - › sunflower oil;
 - › high oleic sunflower oil;
 - › rapeseed oil;
 - › soybean oil.
2. Meals:
 - › sunflower meal;
 - › rapeseed meal;
 - › soybean meal

We export to more than 30 countries around the world.

We would like to offer you cooperation on a regular basis. Our capabilities allow us to work with any volumes and any type of transport. We are also always ready to discuss comfortable terms to you.

Cooperation with us, implies a direct contract with the manufacturer, direct cash flow without intermediaries, high-quality products and documentary services.

Our home is Ukraine, where “Voloshkove Pole” dairy company have been engaged in dairy husbandry and run dairy farming for several decades. We have formed our experience on the legacy of hundreds of farmers who had converted Ukraine into a country with a developed industry of dairy products. Our own network of farming enterprises and milk collection points enable to monitor the quality of raw milk at all stages of production, starting from a cow. We are working for you to be your reliable partner in dairy business.

High quality standards and consummate taste of dairy products of Voloshkove Pole Dairy Company are confirmed by numerous awards of Ukrainian and international contests. Our products are certified by international quality standards ISO 9001:2008, ISO 22000:2005, HACCP Codex Alimentarius (SGS Certificate), Halal, Kosher, and are free from preservatives and GMO, FDA certified

UHT MILK

“Voloshkove Pole” dairy company is in the top five largest producers of UHT milk in Ukraine. Our UHT milk is manufactured of fresh milk. New, technologically equipped, modern manufacturing lines, as well as the knowledge and skillful hands of highly trained process engineers provide consistently high quality of milk of our trademark.

BUTTER AND BLENDS. CHEESE AND CHEESE ANALOGUES

Cheese and butter of “Voloshkove Pole” dairy company carry on cheese-making traditions, they are made of natural, environmentally friendly materials. To taste pasteurized “Kniyazhyi” cheese made of the milk of the cows, having green grass in their daily diet of, is to taste a piece of the miracle. Its taste can be compared with the taste of childhood, which has the aroma of fresh baked milk. Cheese and butter of “Voloshkove Pole” dairy company are always “in the house where love lives”.

CONDENSED MILK

To produce condensed milk of “Voloshkove Pole” dairy company, we use only natural milk and sugar. Over the years our products have consistently received an “excellent” mark during the external quality expertise and have been the leader with highest quality standards on Ukrainian market. Our condensed milk is the BEST not only due to its wonderful taste, but also because of the absence of preservatives and other unwholesome additives.

OUR BENEFITS:

› Production technologies based on the use of live lactic acid bacteria, vitamins and natural supplements.

› Our technologies enable to produce products of different fat status and packing formats, as required by customers, including private label. The possibility to manufacture the product under according to individual formulation.

› The product quality is also monitored by the State research and development centers for standardization, metrology and certification, confirming “Free from GMO” marking.

Yarych Confectionery Factory is a leader in the sale of short dough cookies and crackers in Ukraine. The main producer of Petit Beurre cookies for the European supermarkets. The factory is focused on the production of short dough cookies and crackers.

Narrow specialization of production, balanced range and high quality of products ensure the popularity of the Company's trademark not only in Ukraine but also abroad. Company's brands are: "Maria", "Petit Beurre", "Party time", "Crackers", as well as the "Kids" series of cookies and crackers for children. The Petit Beurre short dough cookies are the European quality, crunchy structure, creamy taste and pleasant aroma. The range includes various packaging options from 100 to 400 g.

The Kids short dough cookies are made of high-quality flour and do not contain harmful impurities, dyes and flavour enhancers. The cookies have an interesting imprint and a variety of shapes, and cookies with the imprint of the English alphabet encourage the children to play and learn. Crackers are crunchy snacks that have many unique flavours for a variety of tastes.

The innovative activity of the company is aimed at updating and modernizing the taste and quality of products. Supporting the healthy eating trend, Yarych Confectionery started the production of cookies without palm oil.

For some cookie recipes we use the whole-meal flour, flour with bran and butter. For

more than 10 years, Yarych has been manufacturing the Private Label products.

Today, we are cooperating with the following networks: Auchan, Biedronka, Carrefour, Eurocach etc. We have prepared and produced more than 35 Private Label projects. We advise and help to find the optimum solution for your business, provide full support of the project from idea to production.

TM Yarych products are annually certified by IFS Food Safety – confirmation of compliance with generally accepted international standards of quality and safety of products and processes of the company.

The Ukrainian-Polish company “**Bulova**” is the developer of the “Mucus PROfessional” technology and the manufacturer of equipment for the secretion and filtration of mucus in mucus from “Mucus pro” molluscs. Snail mucus secretion machines “Mucus pro” extract mucus in a natural way without reagents and chemicals. Without water, you get clean snail mucus with a very low bacterial load. It’s safe for shellfish! With “Mucus pro” technology — making slime is now available. Snail slime — is easy! The company also manufactures equipment for microfiltration of snail mucus and safe

low temperature sterilization. And also freeze dryers “Bulova” for gentle drying of lyophilic method products. Bulova’s company is a world leader in the production of dry, lyophilized snail mucus. Dietary supplements from snail mucus, snail mucin protein. The development of 2021 was freeze-dried, sweet snail caviar breaded with freeze-dried snail mucus — filling for confectionery “MUC IN”. A powerfaul aphrodisiac. Taste: all the same unique notes of rainy summer, autumn mushroom, slightly salty

sea pearls skillfully combined with chocolate and glaze, and all the same white pearls outside. Snail caviar lowers blood sugar levels, and now, paradoxically, they make premium confectionery masterpieces from it. Ingredients: natural biological: collagen, allantoin, glycolic and hyaluronic acids, elastin. “MUC IN” — a confectionery delight for sexual pleasure! Today it is the most expensive confectionery treat, also one of the ten most expensive food products in the world!

46 Parallel Wine Group is a family-owned winemaking company that in February 2020 started rapidly working up the Ukrainian and global wine market. 46 Parallel Wine Group sets a very ambitious goal – to make Ukraine’s sartorial statement in the world of winemaking.

46 Parallel Wine Group name is derived from the very DNA of the company, i.e. the grapes used for our wine making and the company’s production facilities are geographically located on the 46th parallel considered to be a “Golden parallel” in winemaking, after all, famous Burgundy and Bordeaux wineries are also located on it.

Two brands represent the company’s portfolio: **46 Parallel** – premium author wines and **Apostrophe** – the first Ukrainian emotional wine brand.

The **46 Parallel** brand includes two collections: Grand Admiral and El Capitan.

1. Grand Admiral is a limited collection of premium author wines produced in Ukraine from the best selected grapes. 2,620 bottles of Grand Admiral Brut Nature, vintage 2018 sparkling wine, produced by the classical champagne method with aging on lees at least 21 months and less than 2,800 bottles of Grand Admiral vintage 2016 wines from the best grapes are included in this collection.
2. El Capitan is a limited collection of Ukrainian light premium wines produced from the best Pinot grapes of 2019.
3. Apostrophe is the first Ukrainian emotional wine, authentic from the grapes to the brand itself. 46 Parallel Wine Group wines are sold through the digital sales channels, presented in the leading national and regional chain supermarkets and HoReCa throughout Ukraine.

In 2020, the company’s wines came into the export markets of Canada, China, Nigeria and were represented at the exhibitions in Paris and New York.

Excellent skills of **46 Parallel Wine Group** winemakers, which conquered its confident positions as a player in the wine market of Ukraine for the first year, are confirmed by numerous international and domestic awards, and also Ukrainian consumers respect. More than 30 medals were awarded to 46 Parallel Wine Group. In particular, the company’s wines have been included in the list of the best examples of the global winemaking: El Capitan Pinot Gris is the only Ukrainian wine awarded with the Medal at the Mondial de Bruxelles 2020 competition, the premium author wine Grand Admiral Cabernet Sauvignon-Saperavi-Merlot was awarded with a Big Gold Medal at the Sélections Mondiales des Vins Canada competition and became one of the TOP 27 best wines in the world.

Saleks Absolut LLC is a team of qualified specialists who care about the quality and safety of our confectionery. The company has implemented and maintains integrated quality and food safety systems. Currently, we are certified according to the latest international standards ISO 9001 and ISO 22000. After all, one of the most reliable ways to protect consumers is the HACCP (Hazard Analysis and Critical Control Points) food safety management system (risk analysis and control of critical points), which operates effectively at our company. It ensures the safety of products along the entire path of the food chain.

We annually undergo voluntary certification of HALAL (Halal), which unequivocally indicates a high level of product quality.

Good Manufacturing and hygiene practices are used in the production, the implementation of which is periodically monitored by a group of certified internal auditors. The company is open to consumers and invites representatives from customers with whom it cooperates under their own brands for audits.

High-tech equipment of German, Italian, Dutch, Polish production ensures the production of quality and safe products. To improve technological processes, the company attracts foreign specialists.

Every stage, from the preparation of semi-finished products to the production of finished products of TM Saleks, is controlled by a team of professionals from the department of technologists and the production laboratory.

For reliable storage of our products, the warehouses are provided with appropriate conditions with control of temperature and humidity.

TM Saleks confectionery is known and loved in all corners of Ukraine, in the Baltic countries, in Moldova, Belarus, Romania, Poland, Afghanistan and other countries.

We guarantee the highest quality of our products!

We work for each of you!

Group of companies **Premier FOOD** is the largest producer of high-quality meat products and No. 1 business partner for gas stations, fast foods and HoReCa, the leader in production and sale of sausages for small and medium businesses.

We use sausages that we produce for our own restaurant chain “Mr. Grill Hotdogs & Burgers” and are proud to offer the same high quality to our partners.

Our activity combines both production and sales directions. This allows us to control high-quality products, starting from the selection of the best raw materials, ending with ready-made complex solutions for the business.

An important area of activity of the Groupe of companies **Premier FOOD** is exclusive distribution, allowing our partners to receive unique products on the Ukrainian market.

And of course, ensuring the availability of the best products in other countries. **Premier FOOD** supplies high-quality products to Georgia, Azerbaijan, Korea, Hong Kong, the United Arab Emirates, Oman, and Jordan. In addition, we target and expand on the markets of other countries in the regions of Asia and Africa.

By choosing us, you get not only high-quality products but an experienced business partner ready to lead You to success!

Our team is constantly in search of incredible new ideas to make your business successful for you and attractive to consumers.

According to the latest statistics, there are already about 375 million vegetarians and vegans on the planet! We joined millions and developed "vegetable only" products from **Premier FOOD!**

This year has been introduced an absolutely vegan line of products under TM Mr. Grill and TM Grill House that includes Vegan Sausages and Vegan Burgers.

- › Unique on the market vegetarian sausages and burgers of Ukrainian origin!
- › Our Vegan Sausages & Burgers only include natural plant components and spices. The nutritional value of plant origin products has the same figures as real meat.
- › Shock freeze technology allows saving freshness and beneficial quality products from production to consumption.

We are confident that this product will be successful as most of our projects as our team are inspired-minded professionals who are constantly learning, developing, and have the ambition to be the best in their field. We strive to satisfy our customers and make them happy and successful.

Happy Fruits LTD — is a group of companies that produce natural eco-friendly confectionery products under trademarks Frutini and Sweetanok since 2015.

To create Frutini pastilles, selected fruits, berries and citrus fruits are rubbed in puree, which are further dried, pressed and cut into layers.

A vitamin-rich product without preservatives and dyes, the best alternative to candy, is great for children.

An important part of the formulation is fiber contained in the fruit-berry component. Does not contain gluten, gmo free.

Thanks to modern product processing technology, it was possible to preserve all the nutrients that make this treat invaluable for health.

The assortment of Sweetanok products consists of fruit and berry marmalades, favorite sweets from childhood, such as “Bird's milk”, marshmallows, cakes, painted gingerbread, as well as many modern products — macarons, orangettes, handmade chocolates.

We also produce products without sugar and sweets for The Lent.
